get walking

This booklet outlines 13 routes in Solihull that explore the areas in and around the local parks.

Walking is an excellent way to achieve your recommended amount of physical activity as it is free and you don't need any special equipment!

Suitable for anyone, you can go walking anywhere and at any time, and you can start slowly and gradually increase distance and time. You should aim to walk briskly to gain the most health benefits, such as; reducing blood pressure, reducing stress, managing your weight, and making you feel good.

Brisk walking should leave you breathing a little faster (but still able to hold a conversation), feeling a little bit warmer, and your heart beating more quickly.

Walking is an excellent way to improve and maintain a healthy lifestyle, so why not walk one of these routes in your local area?

How much physical activity should you do?

Recent guidelines by the Chief Medical Officers recommend the following levels of activity

Under-fives

180 minutes each day, once a child is able to walk

Children and young people (5-18 year olds)

60 minutes and up to several hours every day of moderate to vigorous intensity physical activity

Adults (19-64 years old) and older people (65+)

150 minutes each week of moderate to vigorous intensity physical activity (and adults should aim to do some physical activity every day)

A brisk walk counts as moderate intensity physical activity, so get walking to achieve your recommended amount!

Would you like to take up some gentle exercise and meet new people?

The Step into Solihull Project provides a programme of health walks throughout the borough. We have 10 regular walks in the borough led by our volunteer walk leaders.

All age groups are welcome, even little ones in pushchairs. The routes used are mostly flat, even and accessible to all participants regardless of physical ability. The walks usually last for an hour, although most offer a shorter, slower alternative.

Step into Solihull also provides other gentle exercise sessions for older adults, which include, Extend, Dance, and Tai Chi.

GREEN FLAG PARKS

The Walk4Life routes are within Solihull Council's seven Green Flag Parks. Awarded by Keep Britain Tidy, the flags are seen as the gold standard for public spaces that are welcoming, safe and well maintained. The flags are also seen as a way of encouraging others to achieve high environmental standards, setting a benchmark of excellence in recreational green areas. Parks are judged against eight criteria which cover everything from access through to sustainability and marketing.

SOLIHULL NEIGHBOURHOOD RANGER SERVICE

Caring for our Parks

The Neighbourhood Rangers have been in operation since 2002 and are an enthusiastic team of nature and community minded individuals set up to develop the relationship between the parks and the people of Solihull. The Ranger team maintains 17 principal parks in the borough as well as more than 100 open spaces, including woodlands and Local Nature Reserves. They are focused on building strong links with the community, involving local people in the management of their green spaces and working with schools to help educate young people about their local environment.

SOLIHULL DISCOVERY WALKS

Solihull Discovery Walks aim to bring together a wide range of people who enjoy natural history, local history and of course, walking. Their aim is to learn something new, meet new friends and to enjoy discovering what an amazing area we live in. Solihull Discovery Walks take place on the third Wednesday of every month and last for approximately three hours. All walks start and finish at individual meeting points. A small donation of £1.00 per person is collected each time but some walks, which include places such as gardens, museums etc, will incur an extra charge.
